Legislators Announce \$100k Grant for Quaboag Regional

BOSTON – Representative Todd M. Smola (R-Warren), Senator Anne M. Gobié (D-Spencer), and Representative Donald R. Berthiaume, Jr. (R-Spencer) are pleased to announce that the Quaboag Regional Middle High School has received a \$100,000 grant from the Massachusetts Life Sciences Center (MLSC). These funds were awarded through the Center’s STEM Equipment and Supplies Grant Program.

“The Quaboag Regional School District should be very proud of receiving this funding and for their continued efforts to increase student achievement and interest in science, technology, engineering, and math.” said Representative Smola.

“I congratulate Quaboag High School in ensuring that their students have the tools needed to enhance learning. Thank you to Mass Life Sciences for promoting STEM so our students will be prepared and able to compete and excel with all students across the Commonwealth.” said Senator Gobié.

“Congratulations to Quaboag Regional Middle High School. This grant will allow them to add to the already extensive STEM program currently in place in the district.” said Representative Berthiaume.

The MLSC is an investment agency that supports life sciences innovation, research, development, and commercialization. The STEM Equipment and Supplies Grant Program enables the purchase of equipment and supplies for high schools and middle schools in Massachusetts in order to train students in life sciences technology and research.
